Hello Jelena,

We are going through the staff review of the ESJWQC 2012 AMR and I am putting together a list of questions. It is likely that we will try to address these questions with you during a conference call in the next week or so (although I will be out of town next week). It would be helpful if you could send us a Word Document version of the staff review of the AMR 2012. I could then add in my comments/questions for us to discuss with you so that we cover everything for the 2013 reports. Do you have the Word Document version of the review available to email me?

Thanks,
Rachel
