***EAST SAN JOAQUIN WATER QUALITY COALITION – MANAGEMENT PLAN
PERFORMANCE GOALS FOR 2013-2015 HIGH PRIORITY SITE SUBWATERSHEDS***

Thank you for submitting the 23 October 2012 request to update the East San Joaquin Water Quality Coalition (Coalition) Management Plan Performance Goals and Measures included in the Coalition's approved Management Plan. The request lays out Performance Goals and Measures with completion dates for the 2013-2015 high priority subwatersheds.

The Coalition is currently implementing Performance Goals for the 2010-2012, 2011-2013, and 2012-2014 sets of high priority subwatersheds. In accordance with the revised schedule for addressing each site subwatershed with a detailed, focused Management Plan approach that was approved on 17 May 2011, the 2013-2015 high priority subwatersheds include Hatch Drain at Tuolumne Road, Highline Canal at Lombardy Road, Merced River at Santa Fe, and Miles Creek at Reilly Road. The proposed performance goals, measures and completion dates for the 2013-2015 high priority subwatersheds are appropriate and similar to previously approved sets of performance goals and measures. Therefore, I approve the Coalition's request to add the 2013-2015 Performance Goals and Measures to the Coalition's Management Plan.

Should the Coalition wish to revise or update any of its management plan performance goals, Executive Officer approval will be required prior to the implementation of any such changes. If you have any questions or comments regarding this letter, please contact Jelena Hartman at jhartman@waterboards.ca.gov or by phone at 916-464-4628.
