Hello Jelena,

We have found an error in the sections of the request to remove site specific constituents from the ESJWQC Management Plan and Management Plan Monitoring schedule letter. It appears that the sections that include PUR data information were calculated incorrectly. The wrong column 'lbs AI per acre' was incorrectly used. I need to update the letter to indicate 'lbs AI' not 'lbs AI per acre'. I apologize for any confusion, the updates will not change the 'declining trend in use' that was reported although the numbers will change. I spoke to Chris about updating the SJCDWQC letter and he is having us revise the letter but allowing us to keep the same submittal date on it, the letter will have a footnote 'revised on November 28, 2012' and we will send a newly signed hard copy in the mail. Does this work for you as well? I will be working on the updates today.

Thanks,
Rachel

Thank you so much Jelena.

I will let also Lindsay know that our two letters are on the top of your list. I am working day and night to get a similar letter (management plan completion) prepared for Chris Jimmerson to review for SJCDWQC. Give us a call at any time if you run into any questions.

Thanks again,
Rachel

Rachel,

I've been out of the office these last few days, but to let you know that the MRPP/QAPP request, and the management plan completion letter you submitted today are my top two priorities. I'll definitively contact you if any questions come up in the review.

Thanks,

Jelena

Thanks Jelena,

I was trying to get it to you before the holidays and ultimately before January 2013 monitoring begins. Please let me know if you have in questions.

Thanks,
Rachel
