

October 20, 2010

Pamela Creedon, Executive Officer  
Central Valley Regional Water Quality Control Board  
11020 Sun Center Drive, #200  
Rancho Cordova, CA 95670-6114

Dear Ms. Creedon,

The East San Joaquin Water Quality Coalition is submitting an amendment to its Monitoring and Reporting Program Plan (MRPP) (approved on June 3, 2010). The attached MRPP document includes an updated amendment table, Table A, which includes a description and page number for each amendment and modification since the original submittal on August 25, 2008.

MRPP Attachment II (Site Subwatershed Maps) and Attachment IV (QAPP) have also been revised and are included with this amendment. The attached QAPP includes an updated amendment table that details the specific QAPP updates (description and page number) for easy reference. No updates were made to MRPP Attachment I (ESJWQC business rules) and Attachment III (site subwatershed PUR summary) and therefore they are not included with this amendment.

Revisions to the ESJWQC MRPP include the following (see specifics in Table A of the amended MRPP and QAPP):

- Updates to sample sites
  - Exchange of sites: Mootz Drain @ Langworth Rd for Mootz Drain downstream of Langworth Pond (approved on November 18, 2009)
  - Removal of South Slough @ Quinley Rd (approved on June 3, 2010)
- Updates to land use and rainfall data website references
- Updates to the overall monitoring strategy to correct a typo (pending approval)
- Updates to laboratory methods and SOPs including analytical method references, quality control limits and precision calculations for sediment grain size (pending approval)
- Updates to the monitoring constituents (pending approval)
- Reports to be submitted electronically (approved on May 17, 2010)
- Updates to the QAPP project management section to include appropriate personnel updates
- Updates to the QAPP data validation and usability section to include revised verification SOPs and data progression flow chart

The revisions pending approval do not change the overall monitoring strategy of the ESJWQC MRPP approved on June 3, 2010 and therefore the amended ESJWQC MRPP maintains compliance with MRP Order No. R5-2008-0005.

Submitted respectfully,

Parry Klassen  
Board Chairman  
East San Joaquin Water Quality Coalition
