CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT – Donald Trembley
MEETING DATE: January 19, 2005

ITEM: 6.B

SUBJECT: LEAKING UNDERGROUND FUEL TANK CLEANUP PROGRAM – Status Report

DISCUSSION: Attached are three tables indicating progress made during the first 2 quarters of fiscal year 04-05 toward our UST program goals. We are currently on track to exceed our goal of 30 case closures. In order to reduce costs to the dischargers and increase efficiency, where possible, we have reduced monitoring frequency to semi-annual. Consequently, the bulk of the monitoring reports will not be received until later this FY. At that time the number of monitoring report reviews will increase and come into line with our goal.

RECOMMEN-
DATION: This is an information item only and no action is necessary.
