

**Table 7.2.3–5 County–Based Watershed Wasteload Allocations for Stormwater Runoff**

<b>County<sup>b</sup></b>	<b>Allocations<sup>a</sup> kilograms per year</b>
Alameda	0.5
Contra Costa	0.3
Marin	0.1
Napa	0.05
San Francisco <sup>c</sup>	0.2
San Mateo	0.2
Santa Clara	0.5
Solano	0.1
Sonoma	0.05
<b>Total</b>	<b>2</b>

- a. Allocations implicitly include all current and future permitted discharges within the geographic boundaries of municipalities and unincorporated areas within the County. Examples of discharges include but are not limited to California Department of Transportation (Caltrans) roadways and non-roadway facilities and rights-of-way, atmospheric deposition, public facilities, properties proximate to stream banks, industrial facilities, and construction sites.
- b. Includes unincorporated areas and all municipalities in the county that drain to the Bay and are part of the San Francisco Bay Region.
- c. Does not account for treatment provided by San Francisco’s combined sewer system. The treatment provided by the City and County of San Francisco’s Southeast Plant and Northpoint Wet Weather Facility (NPDES permit CA0037664) will be credited toward meeting the allocation and load reduction.
