To: California Regional Water Quality Control Board

From: David Crabbe – Resident of the City of San Carlos

Re: Revised Tentative Order for the San Francisco Bay Region Municipal Regional Stormwater NPDES Permit

As a resident of San Carlos, I adamantly disagree with my City Council's position against the Water Quality Board's proposed regulations to strengthen requirements for keeping storm water pollution out of San Francisco Bay. I am willing to pay a little more on my local property taxes to support a cleaner and healthier bay and find my City Council's negative position totally irresponsible. I also object to the relaxation of street sweeping requirements. Not only does it keep junk out of the bay, but it also keeps our neighborhoods clean and attractive. Please note that the City Council does not speak for me, nor do I suspect it speaks for many of my fellow residents.

Please continue with your efforts to strengthen regulations to clean up the bay. I, for one, appreciate it.

Sincerely,

David Crabbe

P.S. I've also attached a .doc copy of this message as requested in your comment instructions.
