ACTION: Adoption of Order No. R3-2019-0083 Terminating Waste Discharge Requirements

KEY INFORMATION

Location: Monarch Grove Water Reclamation Facility in Los Osos, San Luis Obispo County

Goleta Water District in Goleta, Santa Barbara County

SUMMARY

Staff is proposing the termination of outdated waste discharge requirements (WDRs) associated with two facilities that produce or use reclaimed domestic wastewater. These orders are no longer necessary because the discharges are now covered by other orders as described in Table 1 below and within the findings of the proposed order (attached). The proposed order is required to formally terminate the WDRs because they were not terminated as part of the enrollment process for the facilities under the new orders.

Table 1 summarizes the orders needing termination, and the new order that applies to each discharger.
