<b>Project Applicant</b>	Fort Hunter Liggett Dept. of Plans, Training, Mobilization and Safety - William Riley
<b>Applicant's Agent</b>	Fort Hunter Liggett Integrated Training Area Management Component Manager - Andrew Johnson
<b>Project Name</b>	Mud Hole #2
<b>Receiving Water</b>	Unnamed crossing tributary to Agua Fria Creek, a tributary to Nacimiento Creek
<b>City/County</b>	Fort Hunter Liggett/Monterey
<b>Public Notice</b>	September 22, 2016 – October 13, 2016
<b>Project Description</b>	<p>The purpose of this project is to eliminate a mud hole formed through improper drainage and exacerbated through use in poor weather conditions, to allow for natural flow through the area while giving traction and a hard road surface for vehicles.</p> <p>The project activities include:</p> <ul style="list-style-type: none"> <li>• Installing a 48 foot by 12 foot cable concrete crossing;</li> <li>• Excavating 8 inches below current level to install cable concrete;</li> <li>• Installing geotextile fabric in the excavated footprint followed by 4 foot by 16 foot section cable concrete pads placed on the geotextile fabric and wired together;</li> <li>• Backfilling the area with soil to the original ground level, allowing for approximately 4 inches of cable block above the old road surface; and,</li> <li>• Hydroseeding the area.</li> </ul> <p>Planned compensatory mitigation consists of implementing a tree planting project in a different training area on Ft. Hunter Liggett.</p> <p>A Categorical Exemption was filed.</p>
