

2/28/06

To Whom It May Concern,

We were one of the 45 citizens that received Cease and Desist Order R3-2006- [REDACTED] last month. This letter is to submit information regarding our low flush toilets we installed 4 years ago. We are submitting pictures of each toilet. One is a Toto and the other is an American Standard toilet. They each flush 1.6 gallons of water.

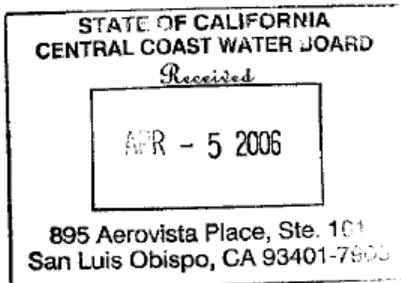

We are also submitting a copy of our most recent water bill. This is for our family of four. Our property sits on a lot that is 37.5 by 100 feet. We have a full automatic sprinkler system, which includes a drip system to both the front and back yards.

According to a recent water table map, our property sits at least 100 feet above the water aquifer. We have maintained our septic tank by having it cleaned at the recommended intervals for a family of four. Our hope is that you will consider these facts when you calculate the recommended number of yearly cleanings required for our situation.

Respectfully submitted,

[REDACTED]
