Dear Mr. Mastin:

On March 28, 1983, this Regional Board adopted Waste Discharge Requirements (WDR) prescribed in Order No. 83-16 for Blue Star Ready Mix, Inc., former owner of CEMEX. Pursuant to the California Water Code, all waste discharge requirements are reviewed periodically, and, upon such review, may be revised by the Regional Board. Following facility inspections on September 27, 2007 and on August 6, 2008, by Regional Board staff and a review of the existing requirements contained in Order No. 83-16, a new tentative Waste Discharge Requirements has been prepared.

Enclosed are copies of the Tentative WDR consisting of:

- a. Board Order No. R4-2008-XXXX,
- b. Tentative Standard Provisions Applicable to WDR, and
- c. Revised Monitoring and Reporting Program No 6660.

In accordance with administrative procedures, this Board will consider the enclosed tentative WDRs and comments therein at a public hearing to be held at 9:00 AM on December 11, 2008 at the Ventura County Government Center at 800 South Victoria Avenue, Ventura, California. The Board will hear any testimony pertinent to this discharge and the tentative requirements. It is expected that the Board will take action at the hearing; however, as testimony indicates, the Board at its discretion may order further investigation.

In order to be fully evaluated by the Regional Board staff and included in the Regional Board's agenda packet, written comments must be received at the Regional Board's office by 5:00 p.m. on November 23, 2008. Failure to comply with these requirements is grounds for the Board to refuse to admit the proposed written comment or exhibit into evidence. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the
