No. 7017 1450 0002 1559 2441

AMENDMENT TO WATER QUALITY CERTIFICATION FOR PROPOSED CONCRETE LINED CHANNELS MAINTENANCE ACTIVITIES PROJECT (Corps' Project No. SPL-2012-00422-BLR), LOS ANGELES COUNTY (File No. 13-029)

Dear Mr. Pestrella:

The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) is in receipt of your notification on February 21, 2019, requesting an amendment of your Conditional Clean Water Act Section 401 Water Quality Certification for the subject project issued on October 2, 2015 (Certification File No. 13-029).

Your notification on February 21, 2019 requested to change the number of reaches maintained and revise the lengths of some reaches. Seven (7) reaches are added because the reaches were recently transferred to Los Angeles County Flood Control District, and five (5) reaches are removed because they were found to be redundant with existing reaches. The lengths of fourteen (14) reaches are revised because updated GIS information showed the original lengths to be incorrect. These changes represent a total of 5.21% reduction in reaches being maintained under this permit.

Total Reach Lengths from 2016	2,224,446	LF
Total Reach Lengths from 2019	2,108,531	LF
Difference	115,915	LF
% Reduction	5.21%	

In response to your request, Attachment C of Certification File No. 13-029 is modified as shown in the attached Table. Deleted text is shown in ~~strike-out~~ and additional text is shown underline.

I have determined that the above-proposed modifications do not constitute a significant change in the nature or scope of the activities described for the project in the original application for Certification 13-029. Therefore, all of the proposed modifications are hereby incorporated into Certification File No. 13-029 and no additional action by this agency pursuant to Section 401 of

Mr. Mark Pestrella
Concrete Lined Channel Maintenance

-2-

File No. 13-029

the Clean Water Act is necessary. This determination is limited to the proposed amendment contained in your notification to the Los Angeles Water Board dated February 21, 2019 and described herein, and does not eliminate the Applicant's responsibility to comply with any other applicable laws, requirements, or permits.

Should you have questions concerning this certification action, please contact Valerie CarrilloZara, Section 401 Program, at (213) 576-6759.

Sincerely,

Renee Purdy
Executive Officer
