

Los Angeles Regional Water Quality Control Board

TO: Interested Persons

FROM: Deborah J. Smith 
Chief Deputy Executive Officer
Los Angeles Regional Water Quality Control Board

DATE: November 4, 2014

SUBJECT: NOTICE OF REGIONAL BOARD STAKEHOLDER WORKSHOP ON SALT AND NUTRIENT MANAGEMENT PLAN DEVELOPMENT FOR THE GROUNDWATER BASINS OF THE LOS ANGELES REGION

This notice is to inform interested persons that the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will be conducting its fifth annual stakeholder workshop on the development of Salt and Nutrient Management Plans (SNMPs) for groundwater basins in the Los Angeles Region. The workshop will be held during the Regional Board public meeting on:

Thursday, December 4, 2014 from 9:00 A.M.
at the City of Culver City Council Chambers
9770 Culver Boulevard
Culver City, California 90232
(The workshop itself will not begin before 1p.m.)

During the workshop, Regional Board staff will provide the Board with information on the Salt and Nutrient Management Plan (SNMP) requirements of the State Water Resources Control Board's Recycled Water Policy, and summarize efforts to facilitate SNMP development in the Los Angeles Region. Stakeholders are invited to present and discuss their progress and status of the basin-specific plans under development.

We strongly encourage stakeholder participation in this workshop. Representatives for groundwater basin groups that would like to present at the workshop should contact Dr. Ginachi Amah by Tuesday November 18, 2014.

This workshop is an opportunity for stakeholders and interested persons to come together and showcase their progress in a more public forum than has been the case for previous workshops. All interested persons are encouraged to attend.

If you have any questions, please contact Dr. Ginachi Amah at Ginachi.Amah@waterboards.ca.gov or at (213) 576-6685. Also, please bring this to the attention of any persons known to you who may be interested in this matter.
