

Los Angeles Regional Water Quality Control Board

TO: MS4 Permittees and Interested Persons

FROM:

*for* *Juan K. Redgeway*  
Renee A. Purdy  
Section Chief  
Regional Programs

DATE: June 19, 2012

SUBJECT: **NOTICE OF STAFF LEVEL PUBLIC WORKSHOP ON THE DEVELOPMENT OF THE UPDATED GREATER LOS ANGELES COUNTY MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) NPDES PERMIT**

On July 9, 2012, Board staff will hold a public workshop to discuss requirements proposed in the Tentative Los Angeles County MS4 Permit. MS4 permittees and interested persons are invited to the staff level public workshop on:

**Monday, July 9, 2012  
1:00 - 3:30 PM  
The Los Angeles Regional Water Board  
Carmel Room  
320 West Fourth Street, Los Angeles, CA**

A quorum of Los Angeles Water Board members may be present during the workshop. However, no action or voting will take place at the workshop.

The primary focus of the workshop is to have Board staff answer questions from MS4 permittees and interested persons regarding the Tentative Order. The discussion may include but is not limited to the following topics:

- TMDL Provisions
- Monitoring requirements
- Tentative permit requirements for the following minimum control measures comprising co-permittees' core stormwater management program:
  - Development Construction Program
  - Planning and Land Development Program
  - Public Agency Activities Program
  - Industrial/Commercial Facilities Control Program
  - Public Information and Participation Program
  - Illicit Connections and Illicit Discharges Detection and Elimination Program

Permittees and interested persons will have an opportunity to ask questions of Los Angeles Water Board staff and provide initial feedback. Please contact me at (213) 576-6622 or [rpurdy@waterboards.ca.gov](mailto:rpurdy@waterboards.ca.gov) or, alternatively, Mr. Ivar Ridgeway at (213) 620-2150 or [iridgeway@waterboards.ca.gov](mailto:iridgeway@waterboards.ca.gov) with questions.
