Dear Permittees of the North Santa Monica Bay Coastal Watersheds CIMP Group:

The Regional MS4 Permit (Order No. R4-2021-0105) authorizes discharges from the MS4 operated by 99 municipal Permittees within the coastal watersheds of Los Angeles and Ventura Counties (hereafter, Regional MS4 Permit or Order). The Regional MS4 Permit requires Permittees to implement an Integrated Monitoring Program (IMP) or a Coordinated Integrated Monitoring Program (CIMP) as set forth in the Monitoring and Reporting Program (Attachment E of the Order) hereafter, MRP.

Pursuant to Part III.D.1.a of the MRP, the North Santa Monica Bay Coastal Watersheds CIMP Group (Group) submitted a revised draft CIMP by the March 13, 2023 deadline for approval by the Executive Officer of the Los Angeles Regional Water Quality Control Board (Los Angeles Water Board or Board).

The Board received one joint comment letter from Heal the Bay, Natural Resources Defense Council (NRDC), and Los Angeles Waterkeeper. These comments were considered during the Board's review of the IMPs and CIMPs.

NORMA CAMACHO, CHAIR | SUSANA ARREDONDO, EXECUTIVE OFFICER

Board's Review

Los Angeles County Permittees were required to update and/or develop a monitoring program pursuant to Part III of the MRP. Board Staff reviewed and provided comments to the Group on September 6, 2023. The Group submitted a revised CIMP on October 31, 2023. On November 6, 2023, Board Staff requested a minor change to the CIMP, and the final CIMP was submitted by the Group on November 9, 2023.

The Los Angeles Water Board has reviewed the Group's CIMP dated November 2023 and has determined that it is consistent with applicable requirements in the MRP, monitoring provisions in applicable TMDLs, and specifically, with Attachments K through S of the Order. Note that, if applicable, the review of the CIMP did not include a review of any Trash Monitoring and Reporting Plans and/or Plastic Pellet Monitoring and Reporting Plans.

Approval

The Los Angeles Water Board hereby approves the Group's CIMP, dated November 2023. Pursuant to Part III.D.1.c of the MRP, **the Group shall implement their approved CIMP immediately**. An approval of the Group's CIMP does not constitute an approval of any unapproved Trash Monitoring and Reporting Plans and/or Plastic Pellet Monitoring and Reporting Plans that were included in the CIMP, if applicable.

Monitoring Program Modifications

Pursuant to Part II.F of the MRP, if the Permittee(s) wish to modify any monitoring requirements in their approved Monitoring Program (e.g., reduce or eliminate monitoring of specified pollutants, reduce monitoring frequencies, change monitoring locations), then the Permittee(s) shall submit a written request to the Executive Officer of the Los Angeles Water Board for approval prior to making any modifications. This provision may be waived if the Los Angeles Water Board determines that the modification is (a) minor and (b) does not otherwise violate any applicable provision of law.

Additionally, pursuant to Part III.D.1.d of the MRP, if there is any change in membership of Permittees participating in an approved CIMP (e.g., Permittee in an IMP joining a CIMP, Permittee dropping out of the CIMP), that Permittee shall notify the Los Angeles Water Board promptly. The affected Permittee(s) shall then revise/develop their monitoring program as directed by the Los Angeles Water Board.
