In re:
State Water Resources Control Board

NOTICE OF APPROVAL OF REGULATORY
ACTION

Regulatory Action:

Government Code Section 11353

Title 23, California Code of Regulations

OAL File No. 2015-0205-01 S

Adopt sections:
Amend sections: 3939.10
Repeal sections:

The State Water Resources Control Board submitted this Government Code section 11353 action to amend the Los Angeles Regional Water Quality Control Board basin plan containing total maximum daily loads (TMDLs) and site-specific objectives (SSOs) for chloride in the Upper Santa Clara River (USCR), and to amend title 23, California Code of Regulations, section 3939.10 to add a concise summary of the basin plan amendment. The amendments to the basin plan would (1) revise the existing water quality objectives of 100 mg/L as an instantaneous maximum for chloride in Reaches 4B, 5, and 6 of the USCR to include a three-month rolling averaging period; (2) add conditional SSOs and corresponding TMDL waste load allocations for chloride of 150 mg/L for Reach 6 and Reach 5 of the USCR above the Valencia River Water Reclamation Plant outfall, and (3) extend the TMDL implementation schedule, applicable to the Santa Clarita Valley Sanitation District, for achieving these waste load allocations until July 2019.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.

Date: 3/18/2015
