Dear Regional Board Members,

The proposed draft Permit recommendations associated with the Sacramento Regional Sanitation District Discharge Permit will be devastating to Sacramento's business community.

The associated fees to construct and operate the required improvements will prevent new businesses from opening and hiring in Sacramento. The fees will put unneeded burdens on homeowners already finding difficulty in making their mortgage, rent and utility payments in these economic times.

Of even more concern is the fact that there is no respectable science associated with the findings that have resulted in the Permit recommendations.

Please do not adopt the recommendations of your staff. They are unjustified and economically disastrous.

Thank you for your consideration.

Brian Holloway,  
Holloway Land Company
