Subject: Discharge fees

Greetings,

Jimmy Kurnosoff here. I am writing to you regarding the threatening letters I have been receiving from the Water Board. First off, I have not heard of you guys for the past 50 years that I have been farming. The past two years, I have not irrigated my land due to no water, dry irrigation pump. No means to water my fields, and nobody to help me out. So I have lost over \$100,000 each year in production, and owe the bank Over \$200,000! Now You people come along out of nowhere, knocking on my door, telling me and threatening me to pay you people money or else! When I pay somebody MY MONEY, I get something in return. So what do I get for the money you want to illegally get from me? Using strong arm tactics, and imposing this white collar crime you are imposing on me. This is "Taxation Without Representation" which is against the law. What is the water board going to do for me? Give me water? help in paying the outrageous prices in drilling a new well, or give me discounts on a new pump? NO? Then what? What is my money going to do for me? Is it that I pay for a piece of paper that says I paid?? FOR WHAT? I have received numerous scam letters in the recent past, and lost \$600 to these scam artist, and do not plan to pay anybody anything until I know its legit! You must prove to me that

1. I have contaminated California's underground Water Supply.
2. How you are going to clear it up, or what you are going to do about it. Why me paying you money and filling out reports and give them to you is going to help me out.
3. You are requesting personal and private information, and I do not want to share it with you. This land is mine, I paid for it, I pay property tax on it every year, I still owe the bank over \$200,000 due to crop not getting any water and loss of production. So I am Broke!! And now you want me to pay you money, just so I can do extra work for you?? And on a yearly basis?? And since when do you own the discharging of water into the ground? And Why must I pay YOU money period? Especially for something that MAY or COULD Happen, but has not yet. And if it does, what are you going to do about it???? NOTHING! JUST COLLECT MONEY!

Bottom Line.....I got letters from you that threaten me to pay, give you money or else. This too is against the law. So, if you want money from me, you must justify it to me, show me why its warranted that I must pay you, how you are directly involved with the discharging of water I irrigate my land with.

Show where the money is going, and how it is going to help me.

P.S.

Your letter states to respond before Oct. 19th, 2015, and I got the letter today, Oct. 21st, 2015! Another error on judgement?

I cannot respond before when received after the date!!!!

Sincerely,

Jimmy Kurnosoff aka s10tahoe87@yahoo.com
