NOTICE OF VIOLATION

FAILURE TO OBTAIN IRRIGATED LANDS REGULATORY COVERAGE UNDER CALIFORNIA WATER CODE SECTION 13260

FAILURE TO RESPOND MAY RESULT IN FINES OF UP TO \$1,000 PER DAY

You are receiving this letter because, based on information available to the California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board or board), you own the following parcel(s) with irrigated cropland, which are subject to new regulations:

County: Madera			
045-122-007			

On 30 January 2015 the California Regional Water Quality Control Board, Central Valley Region's (Central Valley Water Board) Assistant Executive Officer issued you a directive to obtain irrigated lands regulatory coverage pursuant to California Water Code section 13260 (Directive Letter). The Directive Letter required you to either join a coalition group or enroll as an individual discharger under waste discharge requirements for all irrigated agricultural lands that you may own or operate which discharge waste to waters of the State. As stated in the Directive Letter, discharge from irrigated lands may be considered a "waste" under the California Water Code. Irrigating agricultural lands such as yours may result in discharges of waste to land/groundwater or to surface water that could affect the quality of waters of the state. Board staff's review of the parcel or parcels listed in the table above and indicates that the parcels are commercial irrigated cropland. Accordingly, regulatory coverage is required for this land use.

Central Valley Water Board records indicate that (1) you received the Directive Letter by certified mail and (2) you have not arranged regulatory coverage within the 15 calendar days as required.
