

Bacteria Screening Survey—Before, During and After Labor Day 2007 Mokelumne River at Middle Fork Highway 26 Bridge

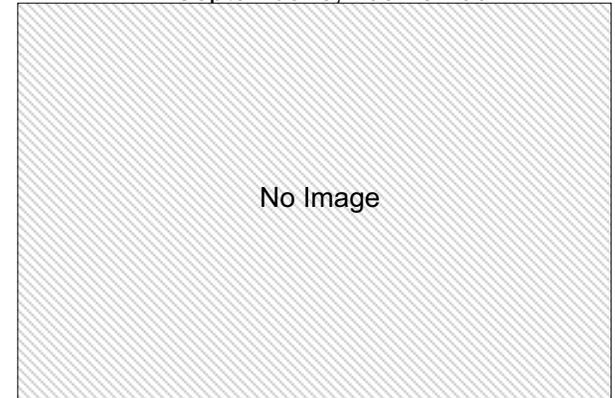

August 30, 2007 10:10AM

September 2, 2007 16:15PM

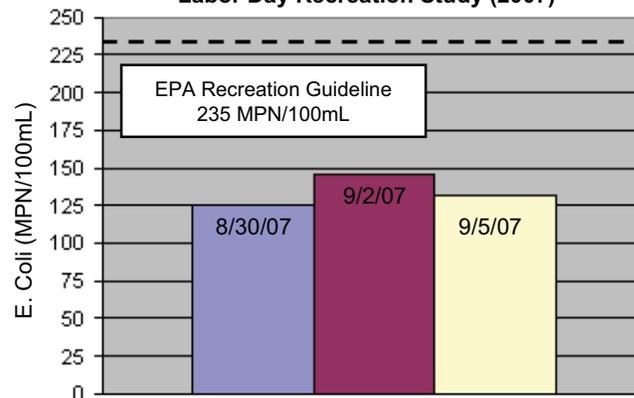

September 5, 2007 8:400AM

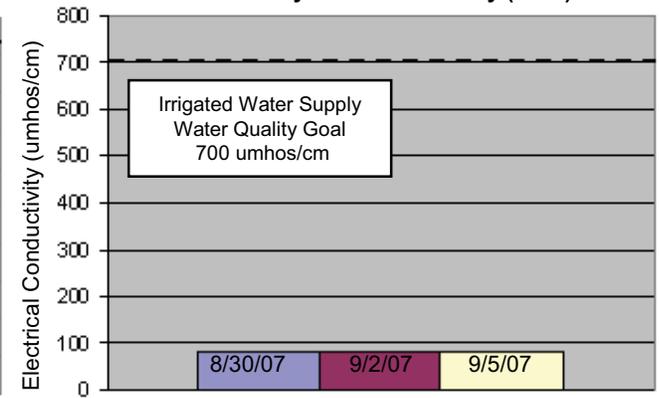

The Central Valley Regional Water Quality Control Board (CVRWQCB) conducted an initial screening study in the San Joaquin River Watershed to evaluate logistical needs for a region-wide Recreation Beneficial Use study, using *E. coli* as an indicator, with a guideline 235 MPN/100mL. Funding for this study was made possible through the Surface Water Ambient Monitoring Program (SWAMP). Summary sheets for all sites included in this study can be found at: http://www.waterboards.ca.gov/centralvalley/water_issues/water_quality_studies.
