Mr. Adam Wolf
California Department of Corrections and Rehabilitation
PA&D, Environmental Compliance Section
9838B Old Placerville Road
Sacramento, CA 95827

Notice of Termination for General Order No. R5-2008-0149-025, Folsom State Prison Maintenance Fueling Area, 100 Prison Road, Represa, Sacramento County

On 2 February 2011, the Executive Officer of the Central Valley Regional Water Quality Control Board issued a Notice of Applicability under Order No. R5-2008-0149, *In-Situ Groundwater Remediation at Sites with Volatile Organic Compounds, Nitrogen Compounds, Perchlorate, Pesticides, Semi-Volatile Compounds, Hexavalent Chromium and/or Petroleum Hydrocarbons*. In the Notice of Applicability the project was assigned site-specific Order No. R5-2008-0149-025.

On 24 February 2011 and 3 March 2011, injection activities were conducted, and included injection of ozone and hydrogen peroxide into two injection points. Post injection monitoring was conducted through December 2013, impact to secondary water quality parameters was observed in the treatment zone well, but monitoring of transition zone and compliance zone wells indicates that impacts to secondary water quality parameters are diluting with migration from the treatment zone.

Your consultant SHN Consulting Engineering & Geologists, Inc. (SHN), requested termination of coverage for the Project on your behalf in the *Fourth Quarter 2013 Groundwater Monitoring and Annual Report* (4Q2013 Report) dated 30 January 2014. Therefore, through this letter, General Order No. R5-2008-0149-025 is hereby terminated as of the date of this letter. Invoicing for General Order coverage will be modified accordingly.
