**NOTICE OF TERMINATION OF COVERAGE UNDER WASTE DISCHARGE REQUIREMENTS ORDER NO. R5-2013-0073-001, FORMER MATHER AIR FORCE BASE (AFB), MAIN BASE/STRATEGIC AIR COMMAND AREA GROUNDWATER EXTRACTION AND TREATMENT FACILITY, SACRAMENTO COUNTY, CALIFORNIA**

On 21 June 2013, the Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board) issued Notice of Applicability No. R5-2013-0073-001 (NOA) granting the United States Air Force (Air Force) coverage under the *Waste Discharge Requirements for Limited Threat Discharges*, Order No. R5-2013-0073, National Pollutant Discharge Elimination System (NPDES) Permit No. CAG995002 (Limited Threat WDRs), for in-situ groundwater remediation and discharge of treated groundwater to land at the Former Mather Air Force Base, Main Base/Strategic Air Command Area Groundwater Extraction and Treatment Facility.

In emails dated 14 and 27 September 2022, the Air Force and their consultants stated the surface water discharges ceased in 2015 and, thus, coverage under the Limited Threat WDRs is no longer required. Based on the information provided, the Central Valley Water Board concurs and hereby terminates the Air Force's NOA for coverage under the Limited Threat WDRs. If you have any questions or comments regarding this letter, please contact Amber Ginorio at (916) 464-4670 or by email at [Amber.Ginorio@waterboards.ca.gov](mailto:Amber.Ginorio@waterboards.ca.gov).
