CENTRAL VALLEY REGION

ADMINISTRATIVE CIVIL LIABILITY COMPLAINT R5-2011-0535

MANDATORY PENALTY  
IN THE MATTER OF

LINDA COUNTY WATER DISTRICT  
WASTEWATER TREATMENT PLANT  
YUBA COUNTY

This Complaint is issued to the Linda County Water District (hereafter Discharger) pursuant to California Water Code (CWC) section 13385, which authorizes the imposition of Administrative Civil Liability, and CWC section 13323, which authorizes the Executive Officer to issue this Complaint. This Complaint is based on findings that the Discharger violated provisions of Waste Discharge Requirements (WDRs) Order R5-2006-0096 (NPDES CA0079651).

The Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board or Board) finds the following:

1. The Discharger owns and operates a wastewater collection, treatment, and disposal system, and provides sewerage service to the unincorporated area of Linda in Yuba County. Treated municipal wastewater is discharged to both the Feather River and to evaporation/percolation ponds that lie within the 100-year flood plain of the Feather River, a water of the United States. The ponds discharge directly to the Feather River during floods, and have hydraulic continuity with the Feather River.
2. On 22 September 2006, effective 11 November 2006, the Central Valley Water Board issued WDRs Order R5-2006-0096, which contained new requirements and rescinded WDRs Order 5-00-165, except for enforcement purposes. On 22 September 2006, the Board also issued Time Schedule Order (TSO) R5-2006-0097. On 29 June 2010, the Board issued amended TSO R5-2006-0097-1 which provided interim limitations and allowed until 21 September 2011 to comply with final effluent limitations for aluminum, ammonia, bis (2-ethylhexyl)phthalate, copper, cyanide, diazinon, dibenzo(a,h)anthracene, dichlorobromomethane, hexavalent chromium, iron, lead, manganese, methoxychlor, organochlorine pesticides and, zinc.
3. On 13 September 2010, the Executive Officer of the Central Valley Water Board issued Administrative Civil Liability Complaint (ACLC) R5-2010-0536 for mandatory minimum penalties for effluent violations (identified in Attachment A to ACLC R5-2010-0536) that occurred from 1 January 2009 through 30 June 2010. The Discharger paid the civil liability and the Board considers those effluent violations specifically listed in Attachment A to ACLC R5-2010-0536 to be resolved.
4. This Complaint addresses administrative civil liability for effluent violations that occurred during the period from 1 July 2010 through 30 November 2010. These violations are specifically identified in Attachment A to this Complaint as subject to mandatory minimum penalties. Attachment A to this Complaint is attached hereto and incorporated herein by

this reference. In determining the proposed administrative civil liability, the Executive Officer considered the interim effluent limitations in WDRs Order R5-2006-0096 and the protection from mandatory minimum penalties provided by TSO R5-2006-0097-1 as a result of the Discharger's compliance with interim effluent limitations in TSO R5-2006-0097-1.

5. On 24 January 2011, Central Valley Water Board staff issued the Discharger a draft Record of Violations. The Discharger has not responded.
6. CWC section 13385(h) and (i) require assessment of mandatory penalties and state, in part, the following:

CWC section 13385(h)(1) states:

Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars (\$3,000) shall be assessed for each serious violation.

CWC section 13385 (h)(2) states:

For the purposes of this section, a "serious violation" means any waste discharge that violates the effluent limitations contained in the applicable waste discharge requirements for a Group II pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 20 percent or more or for a Group I pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 40 percent or more.

CWC section 13385 subdivision (i)(1) states, in part:

Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars (\$3,000) shall be assessed for each violation whenever the person does any of the following four or more times in any period of six consecutive months, except that the requirement to assess the mandatory minimum penalty shall not be applicable to the first three violations:

- A) Violates a waste discharge requirement effluent limitation.
- B) Fails to file a report pursuant to Section 13260.
- C) Files an incomplete report pursuant to Section 13260.
- D) Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants.

7. CWC section 13323 states, in part:

Any executive officer of a regional board may issue a complaint to any person on whom administrative civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision authorizing civil liability to be imposed pursuant to this article, and the proposed civil liability.

8. WDRs Order R5-2006-0096 Effluent Limitations IV.A.2.b., include, in part, the following interim effluent limitations:

b. During the period beginning upon the effective date of this Order and ending upon commencement of discharge from the proposed diffuser at EFF-001 or 21 September 2011, whichever is sooner, the discharge of treated wastewater shall maintain compliance with the following effluent limitations at EFF-002 ....

Parameter <sup>1</sup>	Units	Effluent Limitations				
		Average Monthly	Average Weekly	Maximum Daily	Instantaneous Minimum	Instantaneous Maximum
Biochemical Oxygen Demand, 5-day @ 20°C	mg/L	45	65	--	--	--

<sup>1</sup> Monitoring of EFF-002 for compliance with the effluent limitations is required until the treatment/disposal ponds located within the Feather River levees are permanently closed.

ii. **Electrical Conductivity:** The 30-day 90<sup>th</sup> percentile effluent electrical conductivity shall not exceed 780 µmhos/cm.

iii. **Total Residual Chlorine:** Effluent total residual chlorine shall not exceed the following:

c) 0.019 mg/L as a one-hour average; and

9. According to the Discharger’s self-monitoring reports, the Discharger committed five (5) non-serious violations of the above effluent limitations contained in Order R5-2006-0096 during the period beginning 1 July 2010 through 30 November 2010 as identified in Attachment A. The non-serious violations are subject to mandatory penalties under CWC section 13385 subdivision (i)(1) because these violations were preceded by three or more similar violations within a six-month period. The mandatory minimum penalty for these non-serious violations is **fifteen thousand dollars (\$15,000)**.

10. The total amount of the mandatory penalties assessed for the cited effluent violations is **fifteen thousand dollars (\$15,000)**. As stated herein, a detailed list of the cited effluent violations is included in Attachment A. This Complaint addresses administrative civil liability for violations that are specifically identified in Attachment A as subject to mandatory minimum penalties.

11. Issuance of this Administrative Civil Liability Complaint to enforce CWC Division 7, Chapter 5.5 is exempt from the provisions of the California Environmental Quality Act (Pub. Resources Code section 21000 et seq.), in accordance with California Code of Regulations, title 14, section 15321(a)(2).

**THE DISCHARGER IS HEREBY GIVEN NOTICE THAT:**

1. The Executive Officer of the Central Valley Water Board proposes that the Discharger be assessed an Administrative Civil Liability in the amount of **fifteen thousand dollars (\$15,000)**.
2. A hearing on this matter will be held at the Central Valley Water Board meeting scheduled on **8/9/10 June 2011**, unless the Discharger does one of the following by **13 April 2011**:

  - c) The Central Valley Water Board agrees to postpone any necessary hearing after the Discharger requests a delay by checking off the box next to Option #3 on the attached form, and returns it to the Board along with a letter describing the issues to be discussed.
3. If a hearing on this matter is held, the Central Valley Water Board will consider whether to affirm, reject, or modify the proposed Administrative Civil Liability, or whether to refer the matter to the Attorney General for recovery of judicial civil liability.
4. If this matter proceeds to hearing, the Executive Officer reserves the right to amend the proposed amount of civil liability to conform to the evidence presented, including but not limited to, increasing the proposed amount to account for the costs of enforcement (including staff, legal and expert witness costs) incurred after the date of the issuance of this Complaint through completion of the hearing.
