**Subject:** Oppose the Proposed Discharge Permit  
**Attachments:** .vcf

Dear Board Members -

I am the owner of a 16 unit apartment building in Sacramento within the Sacramento Regional County District service region.  
I am writing you to oppose the proposed discharge permit proposal that will be considered by your board later this year.

I am just a person - not a corporation with massive real estate holdings. I have never had the vacancies that I do now.

I can hardly make my mortgage payments, and am struggling to hold on to this property and not give it back to the bank as it is!

I cannot absorb any more price increases. I am trying to give my residents a safe, clean place to live. Just keeping it up is hard in these times. I have to already absorb rental inspections & city utility hikes.

There has been strong disagreements from experts on this issue, and I am not convinced that there is sufficient evidence to justify this proposal.

Please vote against this proposed rate increase.

Claudia Bordin
