Subject: Response to Proposal to Increased Sewer Charges

Having seen the news on Channel 10 regarding this proposal, I am writing to object to such an increase. People are having enough problems, including myself, even making their house payments let alone increases in utility bills. I agree with a blogger on Channel 10's website stating that Sacramento will be a ghost town if this is implemented. This is a bad plan not only for homeowners but for businesses that Sacramento needs in order to build a healthy economy and to generate much-needed revenue.

No to this proposal! It's a bad plan.

Thank you, Cindy W.
