

ITEM: 19

SUBJECT: Update on the implementation of the Groundwater Quality Protection Strategy For The Central Valley Region, a "Roadmap"

BOARD ACTION: *No Board Action – Informational Item Only*

BACKGROUND: The Groundwater Quality Protection Strategy for the Central Valley Region, a Roadmap (Roadmap) was developed through active stakeholder outreach and approved by the Central Valley Water Board (September 2010 Resolution R5-2010-0095.) The Roadmap is intended to provide a long range planning document that defines the regulatory programs to be enhanced, and identify ways to expand on all partnering opportunities to protect groundwater quality.

Following approval of the Roadmap, a workplan was developed that identified each high priority action, the goal, and objective(s) for the period of June 2011 through June 2013.

With this information item Staff intend to present three components:

- Provide a summary of work completed from the June 2011 Workplan for the Groundwater Quality Protection Strategy for the Central Valley Region, a "Roadmap" August 2010, available for review at:
http://www.waterboards.ca.gov/centralvalley/water_issues/groundwater_quality/index.shtml#gwstrategy
- Provide a workplan for the period of June 2013 through June 2015 for the Medium Priority Actions and on-going High Priority Actions from the Roadmap
- The Roadmap is considered an evolving document and as actions are completed or new information is gathered, updates will be made. Therefore, a draft workplan to update the Groundwater Quality Protection Strategy for the Central Valley Region is the final component of this information item.

RECOMMENDATION: No action required, information item only
