NOTICE OF PUBLIC HEARING
concerning

TENTATIVE WASTE DISCHARGE REQUIREMENTS
FOR
BUENA VISTA
CLASS III LANDFILL
CLOSURE, POST-CLOSURE MAINTENANCE, AND CORRECTIVE ACTION
AMADOR COUNTY

Waste discharge requirements (WDRs) are tentatively being issued to Amador County as the operator and landowner, also known as the discharger (Discharger) for the Buena Vista Class III Landfill (Facility) located at 6500 Lone-Buena Vista Road, which is located approximately one half mile north of the community of Buena Vista in Amador County.

The Facility is a closed landfill with four waste management units (WMU): one unlined Class III WMU; two Class II landfill units; and one Class II surface impoundment. This revised Order prescribes waste discharge requirements (WDRs) and requires implementation of an associated monitoring and reporting program (MRP) for the Facility. These tentative WDRs would authorize the Discharger to finalize reconstruction design drawings, specifications, and quality control documents to replace the final cover for the unlined Class III WMU. These tentative WDRs would further authorize the Discharger to finalize reconstruction design drawings, specifications, and quality control documents to increase the capacity of and replace the liner system for the class II surface impoundment.
