

February 4, 2012

Dear Jeanine Townsend
Clerk to the State Water Board

I urge the board to approve the "Pesticide-Prohibition Basin Plan Amendment." The amendment was recently approved by Lahontan Water Board too. Lake Tahoe needs to be rid of the MILLFOIL that is threatening its clarity.

Our family has owned our home in Tahoe Keys since 1968, and we have witnessed the decline in water quality and clarity in our Lagoon over the years. Something needs to be done soon. Hopefully with the the help of UC Davis scientists a new approach can be made.

Please approve the amendment!
Sincerely,

Carra Rainey MacFarlane
