

Dear Jeannine Townsend, Clerk to the State Water Board

Please include my overwhelming support to the amendment to the Tahoe Basi Plan that allows limited use of aquatic herbicides in Lake Tahoe (and, therefore, in Tahoe Keys where we have a home). It is our understanding that the Lahontan Board has given its unanimous support. I, and my wife, would like to strenuously support this new effort to control the overgrowth of non-native species in our waterways.

sincerely,

John Puccinelli
