
Lahontan Regional Water Quality Control Board

December 26, 2012

POSTPONEMENT OF JANUARY 15, 2013 PUBLIC INFORMATION MEETING REGARDING MANGANESE IN DOMESTIC WELLS, HINKLEY, SAN BERNARDINO COUNTY

This notice is to inform you that the January 15, 2013 public information meeting on manganese is postponed.

On December 20, 2012, Lahontan Water Board staff met with members of the Hinkley Community Advisory Committee, Project Navigator Ltd, PG&E staff and staff of the US Geological Survey to review data and information concerning manganese and arsenic in groundwater, including domestic wells in Hinkley. Maps of existing manganese data were presented and discussed. At the end of the meeting, participants agreed that additional technical review and discussion of data is needed before presenting results, conclusions and/or recommendations at public information meeting. Therefore, the previously-scheduled January 15, 2013 public information meeting has been postponed.

Water Board staff will send out another notification for a public information meeting once a new date has been scheduled.

Please contact Anne Holden with questions at (530) 542-5450.
