**Project Name:**

Corsair, LLC, A Nevada Limited Liability Company - Second Street Realignment Project, WDID No. 7A133135001

**Receiving Water:**

New River, Salton Sea

**Location:**

City or Area: City of Calexico: Imperial County  
Longitude/Latitude: 115°30'38.57"/32° 39' 53.34"  
Township/Range: T 17 South/R 14 East

**Project Description:**

In order to satisfy the mitigation measures associated with the Calexico Gran Plaza Project, the Second Street Bridge will be realigned to accommodate a four-lane Primary Arterial. In addition, to improve the existing roadway, the existing storm drain and outlet at the Second Street bridge will need to be relocated and positioned to just north of the bridge.

The Second Street bridge will be constructed utilizing spanning construction techniques to avoid disturbance in the river. The placement of the rip rap associated with the storm drain outlets would extend two feet on each side of the proposed storm drain pipe and the headwall, approximately five feet below the invert of the outfall. The first outlet was previously permitted in April 2011.

**Action:**

Pending
