Project Name:

Southern California Gas Company Line 5000 Exposure Repair Project

Receiving Water:

Smith Creek, Montgomery Creek, San Gorgonio River, Whitewater River, Salton Sea

Location:

City or Area: Banning, County: Unincorporated Riverside County

Longitude/Latitude: 33.9107° n lat; 116.925° w long, Township/Range: T 3 South, R 1 East

Project Description:

Routine inspections of Southern California Gas Company pipelines have determined that Line 5000 natural gas transmission pipeline was exposed as a result of recent storm events and is subject to damage and external corrosion. The purpose of the proposed project is to protect the pipeline within the channel and to reduce the potential of further exposure by erosion and scour events.
