In re:
State Water Resources Control Board

**NOTICE OF APPROVAL OF REGULATORY
ACTION**

Regulatory Action:

Government Code Section 11353

Title 23, California Code of Regulations

OAL File No. 2012-0229-04 S

Adopt sections: 3969.1

The State Water Resources Control Board submitted this action pursuant to Government Code section 11353 to amend the basin plan of the California Regional Water Quality Control Board, Colorado River Basin Region (Regional Board). The proposed amendment will prohibit discharges of wastewater from septic tank subsurface disposal systems in specific areas in the Town of Yucca Valley. The prohibition of septic tank discharges will apply to areas of Yucca Valley that are scheduled for sewer installation in three phases with compliance deadlines, as specified. The amendment allows the Regional Board to grant exemptions to the prohibition based upon applications that demonstrate unique technical, environmental, or economic conditions that would make connection to the municipal collection system or installation of an on-site advanced treatment and disposal system technically impracticable or economically excessively burdensome. The amendment is represented in a concise summary by the adoption of title 23, California Code of Regulations, section 3969.1.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.
