**Policy/Procedure**

The State Water Resources Control Board policy regarding cancellation of Storm Water permit invoices is as follows:

- When a Regional Board has approved a Notice of Termination for a permit and the effective date of the termination of the permit is before the invoice date, the invoice for the permit will be cancelled.
- When a Regional Board has approved a Notice of Termination for a permit and the effective date of the termination of the permit is within 90 calendar days of the invoice date, the invoice for the permit will be cancelled.
- If the invoice that is to be cancelled has been paid, the payment will be refunded to the discharger.
- If the effective date of the Notice of Termination is 91 or more days past the invoice date, the invoice for that period is considered due and payable. There is no pro-ration of Storm Water permit invoices.
