SUBJECT: NOTICE OF AVAILABILITY OF TENTATIVE ORDER NO. R9-2014-0041, AND TENTATIVE RESOLUTION NO. R9-2014-0042

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is pleased to release, for public review and comment, Tentative Order No. R9-2014-0041, *An Order Adopting Conditional Waivers of Waste Discharge Requirements for Low Threat Discharges in the San Diego Region* (Tentative Order); and Tentative Resolution No. R9-2014-0042 adopting a negative declaration for the proposed action to adopt conditional waivers of waste discharge requirements for low threat discharges in the San Diego Region (Tentative Resolution). The San Diego Water Board will receive written comments on the Tentative Order prior to considering its adoption at the June 2014 Board Meeting.

The Tentative Order proposes to adopt conditional waivers of waste discharge requirements for low threat discharges in the San Diego Region. The tentative conditional waivers issued through the adoption of the Tentative Order will require the implementation of effective management measures, and structural and non-structural best management practices to address potential impacts associated with storm water run on and runoff, wastes, and wastewaters discharged from facilities or operations located within the San Diego Region.

Document Availability

The Tentative Order is available for public review and access on the San Diego Water Board website at:
