SAN DIEGO REGIONAL
WATER QUALITY
CONTROL BOARD
2014 JUN 24 PM 3 12

Subject: San Diego Regional Water Quality Control Board's Resolution of Commitment to an Alternative Process for Achieving Water Quality Objectives for Bio-stimulatory Substances in Loma Alta Slough-Tentative Resolution No. R9-2014-0020

Dear Dr. Abarbanel:

The City of Oceanside supports Tentative Resolution No. R9-2014-0020. As you may know, the City has been an active participant in the stakeholder process to obtain the data to determine how best to restore the beneficial uses of the Loma Alta Slough. The City is committed to address the impairment in the Loma Alta slough through the development and implementation of the Water Quality Improvement Plan.

The City will do its part to restore beneficial uses of Loma Alta Slough and will utilize its resources to the best of its ability to monitor, assess, and implement Best Management Practices (BMPs) within the Loma Alta Watershed to meet the goals of the Resolution.

If you should have any questions or want to discuss this further, please do not hesitate to contact me at (760) 435-5827 or my email cdale@ci.oceanside.ca.us

Sincerely,

Cari Dale, Water Utilities Director
City of Oceanside
