

TABLE 1

**DEPTH TO GROUNDWATER AND CALCULATED GROUNDWATER ELEVATIONS FOR HAND-MEASURED WELLS
Chevron Station No. 9-1870
Temecula, California**

Well Identification	Measuring Point Elevation¹ (feet msl)²	Date of Measurement	Time of Measurement	Depth of Water Below Measuring Point (feet)	Water Level Elevation (feet msl)
B-13	1006.45	10/21/2002	17:38	14.82	991.63
		10/22/2002	5:45	14.81	991.64
		10/22/2002	6:58	14.81	991.64
		10/22/2002	9:10	14.81	991.64

		10/25/2002	12:03	34.61	980.88
10/28/2002	11:36	33.56	981.93		

1 Measuring point is top of casing for monitoring wells and piezometers; top of sounding tube for groundwater supply wells.

2 feet msl = feet above mean sea level.
