Ms. Milica Kaludjerski  
Department of Public Works  
County of San Diego  
5555 Overland Ave., Suite 2188  
San Diego, CA 92123-1295

Dear Ms. Kaludjerski:

**SUBJECT: REVIEW OF MONITORING REPORT FOR ORDER NO. 87-108  
RANCHO DEL CAMPO WATER POLLUTION CONTROL FACILITY**

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) has reviewed the July-September 2010 quarterly monitoring report submitted by County of San Diego (County in accordance with Monitoring and Reporting Program No. 87-108).

The following violation of Section B.1 (Discharge Specifications) of Order No. 87-108 was identified in the submitted report:

1. The 12-month average discharge specification for nitrate established at 75 milligrams per liter (mg/L), was exceeded for the 12-month period of October 2009-September 2010 with a reported value of 88.2 mg/L.

Please be aware this violation subjects the County to possible further enforcement action by the San Diego Water Board, including administrative enforcement orders requiring the County to cease and desist from violations, or to clean up waste and abate existing or threatened conditions of pollution or nuisance; administrative assessment of civil liability in amounts of up to \$5,000 per day per violation;<sup>1</sup> referral to the State Attorney General for injunctive relief; and referral to the District Attorney for criminal prosecution.

---

<sup>1</sup> Under authority of California Water Code section 13350.

The next monitoring report required to be submitted is the October-December 2010 quarterly and January-December 2010 annual report, which is due by January 30, 2010.

The California Regional Water Quality Board, San Diego Region (San Diego Water Board) implemented an electronic records management system, aka Paperless Office, to reduce paper consumption, anticipate future records management solutions, and improve the overall accessibility to water quality records and documents. We strongly encourage you to provide all regulatory documents, submissions, materials, data, and correspondence on compact disk (CD-ROM or CD) in a Portable Document Format (PDF) file *in lieu of paper-sourced documents*. However, submitting electronically for documents fewer than 25 pages (<10 MB) is not mandatory. In some instances paper submittals are still required; see attached letter for details.

For questions pertaining to the subject matter, please contact Amanda Dai at (858) 627-3977 or via email at [adai@waterboards.ca.gov](mailto:adai@waterboards.ca.gov).

**PLEASE INCLUDE "251653:ADAI" IN THE SUBJECT LINE OF FUTURE CORRESPONDANCE.**

Sincerely,

Robert W. Morris, P.E.  
Senior Water Resource Control Engineer  
Cleanup and Land Discharge Branch

Regulatory Measure ID: 376425  
Violation ID: 884019

**TO: All Persons/Parties Submitting Documents and Data**

**FROM: David W. Gibson, Executive Officer**

**DATE: July 1, 2010**

**SUBJECT: Guidelines for Electronic Submittal of Documents – CD-ROM**

The California Regional Water Quality Board, San Diego Region (San Diego Water Board) implemented an electronic records management system, aka Paperless Office, to reduce paper consumption, anticipate future records management solutions, and improve the overall accessibility to water quality records and documents. We strongly encourage you to provide all regulatory documents, submissions, materials, data, and correspondence on compact disk (CD-ROM or CD) in a Portable Document Format (PDF) file *in lieu of paper-sourced documents*. In some instances paper submittals are still required; see below for details.

The following format guidelines will provide an accurate substitute of an original paper-sourced document suitable for inspection, review, and copying:

1. **Convert** documents greater than 10 megabytes (>10MB), or more than 25 pages, into a PDF file as it would normally appear in a paper-sourced document. Please limit the size of the PDF file to <150mbs (less than 150MB); if more than 150MB, divide the document into volumes. *Documents that are 25 pages or less need not be submitted on CD.*
2. **Transfer** onto a CD. Remember to *label* the CD and case or envelope with similar information which appears in the 'subject' line of the cover page (ie. title of the document, property name and location, submission date, and project identifier such as NPDES, CIWQS, Order Numbers, etc.).
3. **Verify** that the PDF file on CD:
  - a. Contains the *entire* document, maintaining organization and layout, including page orientations, size, margins, fonts, table formats, page numbers, and appendices.
    - i. Appendix cover pages must be in the same order as they would appear in a paper-sourced document, followed by the information assigned to that appendix; and
    - ii. Each subsection of an appendix must also have its own cover page (ie. Appendix D.1 or Appendix E.4) followed by the information assigned to that subsection.

**California Environmental Protection Agency**

Recycled Paper ♻

- b. Allows the reviewer to *copy text and images* into common word processing documents (OCR – Optical Character Recognition). If you do not have this technology we will attempt to convert the PDF into OCR as necessary.
  - c. Enables review of the document *clearly and legibly*. If needed for larger documents, include a well-structured table of contents that allows the reviewer to identify key components of the document. Generally, bookmarks are useful, and hypertext linking improves navigation through the document. However, in order to minimize loss of functionality, if hypertext links are provided, use only relative paths which do not reference specific drives or root directories, and make the bookmark hierarchy identical to the table of contents (avoid using more than 2-3 levels which will increase the need for space to read the bookmarks).
4. *Submit / mail* to the address listed above with a *paper copy of a cover letter*, transmittal page, and/or report cover page. See additional information regarding original certifications and other original signature requirements below.

Be advised that failure to comply with formatting guidelines for CD-sourced documents may cause a delay in the review of the submission, and you may be requested to perform necessary re-conversion changes. Additionally, we may request that some documents and materials continue to be submitted on paper, particularly large drawings or maps.

*Documents submitted via electronic mail (e-mail) to individual Staff will not be accepted as formal submissions at this time.* In order to properly catalogue all submissions, they must be sent to our mailing address.

The San Diego Water Board is developing policy and procedure requirements for the submission of digital signatures (electronic signatures). In the meantime, if documents for which regulations, orders, permits, etc., require an *original hand-written signature*, such as professional certifications or penalty of perjury oaths, please *also* scan and insert into the PDF file where appropriate and easily identified. If you are unable to provide an electronic duplicate of the original hand-written signature please indicate on your cover letter when submitting the CD-sourced document.

If you have questions please call the appropriate Staff assigned to your program or project. Thank you for your cooperation and assistance in protecting California's natural resources.

Respectfully,

David Gibson,  
Executive Officer
