Subject: Existing Development - Topics For Discussion
Date: Tuesday, July 31, 2012 3:50:36 PM

Hi Wayne & Laurie,

Looking forward to our discussion tomorrow on Existing Development here in Encinitas.

There will be a total of three representatives from our Existing Development sub-workgroup including myself, Helen Davies from the City of Santee, and Ruth Kolb from the City of San Diego. To give you a general idea of some of the areas we would like to get some clarity on, I offer the following list of topic areas. While broad as listed below, there are some more refined points that we want to get your take on to better inform our approach to evaluating them. I apologize that this is coming in late, but we have been working to refine these areas as a working body over the past few weeks. If you have any up front questions please let me know. In advance, thanks for taking the time to work with us on these very important issues.

- Existing Development Inventories
- Existing Development Inspections
- Residential
- BMP Implementation and Maintenance
- Retrofit & Channel Rehab
- WQIP / JRMP Relationship

See you tomorrow.
