SAN DIEGO REGION

ADDENDUM NO. 1

TO

CLEANUP AND ABATEMENT ORDER NO. 93-49

FOR

CHEVRON U.S.A. PRODUCTS COMPANY AND JAMES C. SILVER;  
2712 WASHINGTON STREET

ROBERTA H. GREEN;  
2126 MAIN STREET

WILLIS AND LILLIE SLAUGHTER;  
2103 MAIN STREET

JULIAN, CALIFORNIA  
SAN DIEGO COUNTY

California Regional Water Quality Control Board, San Diego Region  
(hereinafter RWQCB) finds that:

1. On April 1, 1993, the RWQCB Executive Officer issued Cleanup and Abatement (C&A) Order No. 93-49 to the above four parties for an unauthorized discharge of fuel to the ground water beneath downtown Julian. This order was then revised on April 19, 1993.
2. C&A Order No. 93-49 requires final site cleanup by April 1, 1995.
3. The sampling presently being performed on the influent to the Granular Activated Carbon treatment system provides limited information on the current state of the ground water since it consists of a blend of all the production wells being pumped at any given time. Individual sampling of the production wells, as required by this addendum, will provide data vital to evaluating this site.

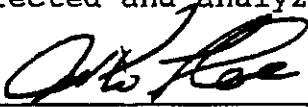

IT IS HEREBY ORDERED, that pursuant to Section 13304 of the California Water Code, the dischargers shall comply with the following directive:

1. Directive No. 14 is added and shall read as follows:

"14) The dischargers shall sample all known, accessible production wells, both public and private, in the downtown Julian area. The samples shall be analyzed for Total Petroleum Hydrocarbons (TPH), Benzene, Toluene, Ethylbenzene, Xylene, Total lead, Ethylene dibromide and Ethylene dichloride. Samples shall be collected semi-annually, one sample between May 1 and

May 31 with results of the analyses submitted to the RWQCB by June 30 and the other sample between November 1 and November 30 with results of the analyses submitted to the RWQCB by December 31. The first two rounds of samples shall be collected and analyzed in 1994."

Ordered by:
