

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN DIEGO REGION

TECHNICAL CHANGE ORDER NO. 1 TO  
MONITORING AND REPORTING PROGRAM NO. R9-2002-0115

AN ORDER SPECIFYING WASTEWATER DISCHARGE MONITORING FOR ROBERT & ELISABETH  
CROUCH, TRUSTEES of ROBERT & ELISABETH CROUCH TRUST and MOUNTAIN MEADOW  
MUSHROOM, INC.  
MOUNTAIN MEADOW MUSHROOM FARM  
SAN DIEGO COUNTY

The following requirements for monitoring and reporting on the discharge of wastewater to the subsurface disposal system supplement the provisions specified in Monitoring and Reporting Program No. R9-2002-0115.

1. Program Duration

The discharger shall monitor the discharge of wastewater to the subsurface disposal system at least once per year until such time that samples are collected, analyzed and reported for two years. If there is no discharge of wastewater during the year, the discharger shall report that there was no discharge and obtain a sample during the following or subsequent years when there is a discharge to the subsurface drainage system.

2. Monitoring Location

Samples and measurements taken as required herein shall be representative of the volume and nature of the monitored discharge. The discharger shall establish a monitoring location at a point that is representative of the discharge to the subsurface disposal system of the wastewater generated and stormwater runoff from the wharf area where stable bedding is composted to produce mushroom substrate.

3. Monitoring Provisions

The Monitoring Provisions contained in Section B of MRP R9-2002-0115 are applicable for monitoring discharges of wastewater to the subsurface disposal system.

4. Grab Sample

A grab sample is an individual sample of at least 100 milliliters collected at a randomly selected time over a period not exceeding 15 minutes.

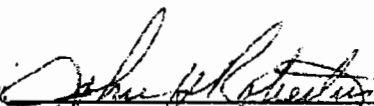

5. Constituents

Grab samples of the wastewater collected at the monitoring location shall be analyzed for: Total dissolved solids, chloride, sulfate, nitrogen (total nitrogen, organic nitrogen, nitrate, nitrite, ammonia), phosphorus (total phosphorus, orthophosphate phosphorus), pH, total and fecal coliform organisms, iron, manganese, and boron.

6. Reporting

Monitoring reports shall be submitted to the Regional Board as part of the Annual Report specified by Section I of MRP No. R9-2002-0115.
