

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN DIEGO REGION**

**ADDENDUM NO. 7 TO  
ORDER NO. 97-11**

**GENERAL WASTE DISCHARGE REQUIREMENTS  
FOR POST-CLOSURE MAINTENANCE OF  
INACTIVE LANDFILLS CONTAINING HAZARDOUS AND NONHAZARDOUS  
WASTES WITHIN THE SAN DIEGO REGION**

The California Regional Water Quality Control Board, San Diego Region (hereinafter the Regional Board) finds that:

1. On April 9, 1997, this Regional Board adopted Order No. 97-11, *General Waste Discharge Requirements for Post-Closure Maintenance of Inactive Nonhazardous Waste Landfills within the San Diego Region*. Order No. 97-11 established landfill maintenance requirements and water quality monitoring for landfills that ceased operation prior to 1984.
2. The United States Navy (the "Discharger") terminated the discharge of wastes into the former Admiral Baker Field Landfill (former Landfill) in 1980.
3. The former Landfill was originally enrolled in Order No. 97-11 at the time of adoption. Order No. 97-11 requires that Dischargers conduct, and report results from, regular maintenance and monitoring at the enrolled landfills.
4. The Discharger completed field sampling and clean closure activities at the former Landfill from January 2004 through March 2004. These activities were documented in a Final Closure Report dated May 2007 and Groundwater Monitoring Report dated April 2008. Based on the information provided to the Regional Board, the former Landfill meets the applicable State requirements for clean closure of a landfill, pursuant to State requirements promulgated as California Code of Regulations (CCR) Title 27 §21090(f).
5. The Regional Board has notified the Discharger and all known interested parties of its intent to terminate the enrollment of former Admiral Baker Field Landfill under Order No. 97-11.
6. The project is exempt from CEQA, in accordance with Title 14, California Code of Regulations, Article 19, section 15061(b)(3), because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

7. This action involves the termination of enrollment of the former Landfill under Order No. 97-11, where the Discharger has ceased the discharge of wastes, and completed clean closure requirements under CCR Title 27 §21090(f).

**IT IS HEREBY ORDERED** that:

Enrollment of the former Admiral Baker Field Landfill under Order No. 97-11 is hereby terminated.

*I, John H. Robertus, Regional Board, do hereby certify the foregoing is a full, true and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Diego Region, on November 12, 2008.*
