

EXECUTIVE OFFICER SUMMARY REPORT  
November 12, 2008

- ITEM: 7
- SUBJECT: Waste Discharge Requirements Revision – U.S. Navy Former Admiral Baker Field Landfill: Termination of Enrollment in Order No. 97-11, General Waste Discharge Requirements for Post-Closure Maintenance of Inactive Landfills Containing Hazardous and Nonhazardous Wastes within the San Diego Region (tentative Addendum No. 7 to Order No. 97-11) (*Brian McDaniel*)
- PURPOSE: To consider adopting tentative Addendum No. 7 to Order No. 97-11 terminating enrollment of the former Admiral Baker Field Landfill.
- PUBLIC NOTICE: A Public Notice for closure of the former Admiral Baker Field Landfill was published by the U.S. Department of the Navy in: (1) the San Diego Union Tribune on December 24, 2004; and (2) the Star-News (Chula Vista) on December 24, 2004. This action satisfied the 45-day public notification for this agenda item, as required by California Code of Regulations (CCR) Title 27 section 21730 (b).
- DISCUSSION: The former Admiral Baker Field Landfill is located along the northwestern bank of the San Diego River, 2 miles northeast of the intersection of Interstate Highways 8 and 15 (Figure 1). The former landfill is approximately one acre in size and is currently regulated under Order No. 97-11.
- Regional Board Order No. 97-11, "*General Waste Discharge Requirements for Post-Closure Maintenance of Inactive Nonhazardous Waste Landfills within the San Diego Region*" established landfill maintenance requirements and water quality monitoring for former landfills and burn sites that ceased operation prior to 1984.

On June 20, 2007, the discharger submitted a Final Closure Report documenting that all landfill wastes had been removed. In addition, the discharger submitted a Final Groundwater Monitoring Report dated April 21, 2008 in support of the Final Closure Report which documented that there were no impacts to waters of the state.

**KEY ISSUES:**

This action involves the termination of enrollment of the former Admiral Baker Field Landfill under Order No. 97-11, where the Discharger has ceased the discharge of wastes, and completed clean closure requirements under CCR Title 27 section 21090(f).
