February 20, 2008

San Diego Regional Water Quality Control Board
9174 Sky Park Court
San Diego, CA 92123

RE: Facility ID 9 000000669

To Whom It May Concern:

Mitsubishi Cement Corporation requests the Regional Board consider nullifying Order No. 95-46, "Waste Discharge Requirements for the Wilson Creek Sand Mining and Processing Facility."

The site, located near Aguanga in Southwestern Riverside County, was to be a sand mining and processing facility, but the project has never come to fruition. Since the site has never been in operation, there has been no regulated discharge from the site. We will apply for a new permit if we decide to move forward with this operation in the future.

Please do not hesitate to contact me with any further questions or comments.

Sincerely,

Michael W. Jasberg
Executive Vice President & COO
