

EXECUTIVE OFFICER SUMMARY REPORT
June 10, 2009

- ITEM: 5
- SUBJECT: Master Reclamation Permit, Western Municipal Water District, Murrieta Division, Riverside County (Tentative Order No. R9-2009-0051) (Fisayo Osibodu)
- PURPOSE: To transfer responsibility from the Eastern Municipal Water District (EMWD) to the Western Municipal Water District (WMWD) for compliance with California Code of Regulations, Title 22 requirements for the distribution and use of recycled water within the WMWD boundaries.
- PUBLIC NOTICE: Notification of this action was posted on the Regional Board web page on April 13, 2009. This action satisfies the public notification requirements of California Water Code, Division 7 section 13167.5 for a 30 day notice.
- DISCUSSION: Tentative Order No. R9-2009-0051 establishes requirements for the distribution of recycled water by the WMWD to use areas located in the City of Murrieta. The recycled water will be provided to WMWD by Eastern Municipal Water District from its Temecula Valley Regional Water Reclamation Facility. This facility is regulated under Order No. 2000-165, *Waste Discharge Requirements for Eastern Municipal Water District's Temecula Valley Regional Water Reclamation Facility, Riverside County*.
- The WMWD has developed rules and regulations governing the design, construction and use of recycled water distribution and disposal systems by its customers pursuant to California Water Code section 13523.1 (b) (3). These rules and regulations are necessary for the protection of public health, and are consistent with rules and regulations developed by other recycled water agencies. Upon obtaining approval from the California Department of Public Health and adoption of the tentative Order, the WMWD can initiate distribution of recycled water.

The two potential use areas identified by the WMWD are the City of Murrieta Town Square Government Center and Hunt Field. Tentative Order No. R9-2009-0051 however, allows the WMWD to distribute recycled water to any use areas within its boundaries. The tentative Order also requires the WMWD to submit quarterly and annual recycled water user's summary reports to the Regional Board.

KEY ISSUES: None

LEGAL CONCERNS: None
