**Tentative Order No. R9-2020-0186**

**November 18, 2020**

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD**

**SAN DIEGO REGION**

**TENTATIVE ORDER NO. R9-2020-0186**

**AN ORDER RESCINDING ORDER NO. 95-15,  
WASTE DISCHARGE REQUIREMENTS FOR MR. ANGELO FORTE,  
ANZA PINES MOBILE PARK, NEAR CAHUILLA, RIVERSIDE COUNTY**

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board), finds that:

1. Order No. 95-15, *Waste Discharge Requirements for Mr. Angelo Forte, Anza Pines Mobile Park, Near Cahuilla, Riverside County*, established requirements for the discharge of domestic wastewater from an onsite wastewater treatment system (OWTS), which consists of five septic tanks that drain to a leach field. Domestic wastewater from the Anza Pines Mobile Park is collected from 52 recreational vehicle spaces, a store, an office building, and a restroom and laundry facility, and discharged to the septic system. The Anza Pines Mobile Park is located at 53651 Highway 371, SP#53, Anza, Riverside County. The San Diego Water Board adopted Order No. 95-15 on February 9, 1995.
2. The County of Riverside Department of Environmental Health (County of Riverside) notified the San Diego Water Board on September 1, 2020, that it will maintain oversight of the Anza Pines Mobile Park OWTS under the authority of the County of Riverside's Local Agency Management Plan.
3. The State Water Resources Control Board adopted the Water Quality Control Policy for Siting, Design, Operation, and Maintenance of Onsite Wastewater Treatment Systems (OWTS Policy), which allows local agencies to approve OWTS, based on a local ordinance, after approval of the *Local Agency Management Plan for Onsite Wastewater Treatment Systems* (LAMP) by the Regional Water Quality Control Board. The purpose of the LAMP is to allow the continued use of OWTS within the jurisdiction of local agencies, as well as to expand the local program to permit and regulate alternative OWTS while protecting water quality and public health. The County of Riverside LAMP was approved by the San Diego Water Board on November 17, 2016.
4. The discharge from the Anza Pines Mobile Park OWTS is eligible for oversight by the County of Riverside under the LAMP based on information provided in monitoring reports and information obtained during a compliance inspection conducted by San Diego Water Board staff on January 27, 2020. As such, the discharge from the Anza Pines Mobile Park OWTS is more appropriately regulated under the County of Riverside LAMP than under individual waste discharge requirements.

5. The San Diego Water Board heard and considered all comments pertaining to the adoption of Order No. R9-2020-0186 in a November 18, 2020, public meeting.
6. Adoption of Order No. R9-2020-0186 is not subject to the California Environmental Quality Act (CEQA, Public Resources Code, section 210000 et seq.). Pursuant to California Code of Regulations, title 14 (title 14), sections 15060(c)(2) and 15061(b)(3), the action to rescind Order No. 95-15 will not have potentially significant adverse effects on the environment because the discharge that was regulated by Order No. 95-15 is now regulated under the County of Riverside LAMP. In addition, adoption of Order No. R9-2020-0186 is exempt from CEQA pursuant to categorical exemptions listed in title 14, section 15301 (ongoing or existing projects). Finally, activities at this facility as allowed by the OWTS Policy will be covered under the County of Riverside LAMP, which was adopted in compliance with CEQA.

**IT IS HEREBY ORDERED** that Order No. 95-15 is rescinded.

*I, David W. Gibson, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Diego Region, on November 18, 2020.*

**TENTATIVE**

David W. Gibson, Executive Officer
