On June 13, 2017, Clean Water Act Section 401 Water Quality Certification No. R9-2017-0004 (Certification) was issued to Santa Margarita Water District (Applicant) for the Trampas Reservoir Project (Project). On June 13, 2018, the Certification was amended to authorize impacts to an additional 0.24 acre (440 linear feet) of ephemeral streambed waters of the United States and/or State.

By letter dated April 8, 2019, Glenn Lukos Associates, Inc., on behalf of the Applicant, requested the Certification be amended to extend the Project Section 401 Certification to December 31, 2020, as construction of the Project has experienced delays due to rain. The Army Corps of Engineers (Corps) issued Section 404 Permit No. SPL-2016-00564-ERS for the Project in accordance with the Letter of Permission Procedures (LOP) on June 16, 2017 and it expires on June 16, 2019. The Certification for the Project will also expire with the Corps Section 404 LOP on June 16, 2019.

Based on the Applicant's request, the California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is amending the Certification to extend the expiration date of the Certification to December 31, 2020. Except as modified or superseded by the Certification modifications set forth below, all of the findings, provisions and other requirements of Certification No. R9-2017-0004 remain in full force and effect. The following changes are made to Certification No. R9-2017-0004 and are shown in underline/strikeout format to indicate added and removed language:
