Mr. Wieher:

Subject: Requirement to Enroll under Industrial Storm Water General Permit, Sunrise Bobcat & Hauling Service, Inc., 12124 Industry Road, Lakeside, CA 92040

Pursuant to California Water Code (CWC) Section 13399.30, you are hereby notified that Sunrise Bobcat & Hauling Service, Lakeside, is required to enroll under Order No. 97-03-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000001, *Waste Discharge Requirements (WDRs) For Discharges of Storm Water Associated with Industrial Activities Excluding Construction Activities*. Order No. 97-03-DWQ (Industrial Storm Water General Permit) was issued by the State Water Resources Control Board on April 17, 1997 and is enforced locally by the California Regional Water Quality Control Board, San Diego Region (San Diego Water Board).

The San Diego Water Board conducted a joint inspection of your facility on November 20, 2014 with a County of San Diego Hazardous Materials Division Inspector. The inspection confirmed that coverage under the Industrial Storm Water General Permit for your facility, located at 12124 Industry Road, Lakeside, is mandatory based on SIC Code 4231 (Terminal Facilities & Joint Terminal Maintenance Facilities for Motor Freight Transportation), and, conditional SIC Code 3531 (Construction Machinery & Equipment). You were not present during the inspection. However, you granted permission to inspect your facility by phone. The inspectors identified areas of concern including exposure of oil, grease, solvents, batteries, engines, transmission cores, and radiators (collectively pollutants). The inspectors also noted lack of structural and nonstructural Best Management Practices (BMPs) to prevent storm water from coming into contact with pollutants and prevent runoff of pollutants from your site. By e-mail dated November 21, 2014, the San Diego Water Board inspector requested that you eliminate exposure of pollutants and implement BMPs. During a follow up inspection on December 2, 2014, it was confirmed that corrective action had been made.

The Industrial Storm Water General Permit is an NPDES permit that regulates discharges associated with 10 broad categories of industrial activities. This permit requires the implementation of management measures that will achieve the performance standard of best available technology economically achievable (BAT) and best conventional pollutant control technology (BCT). The Industrial Storm Water General Permit also requires the development of a Storm Water Pollution Prevention Plan (SWPPP) and a water quality monitoring plan. Through the SWPPP, sources of pollutants are to be identified and the means to manage the sources to reduce storm water pollution described. The permit requires that an annual report be submitted each July 1. The San Diego Water Board inspector provided you with a copy Order No. 97-03-DWQ and Notice of Intent Form.

HENRY ABARBANEL, CHAIR | DAVID GIBSON, EXECUTIVE OFFICER

2375 Northside Drive, Suite 100, San Diego, CA 92108 | (619) 516-1990 | www.waterboards.ca.gov/sandiego

For more information regarding the Industrial Storm Water General Permit, please see our website:
http://www.waterboards.ca.gov/water_issues/programs/stormwater/industrial.shtml

To apply for coverage under the permit, you must submit a Notice of Intent (NOI), which is included in the packet that the inspector provided to you during the inspection. Within thirty days, please submit a completed NOI, a site map of the facility, and the application fee of \$1791.00 made payable to "State Water Resources Control Board." All materials must be sent to the following address:

State Water Resources Control Board
Division of Water Quality
Attn: Storm Water Section
P.O. Box 1977
Sacramento, CA 95812-19

Failure to seek coverage could result in a mandatory minimum penalty of not less than \$5000 per year of noncompliance pursuant to CWC sections 13399.30 and 13399.33.

In the subject line of any written correspondence in response to this letter, please include the requested "In reply refer to: **Application ID: 451373**" information located in the heading of this letter. All correspondence must be submitted to the San Diego Water Board in electronic (PDF) format via e-mail to SanDiego@waterboards.ca.gov. For questions pertaining to the subject matter, please contact Ms. Whitney Ghoram at (619) 521-8040.

Respectfully,

JAMES G. SMITH
Assistant Executive Officer
