

California Regional Water Quality Control Board
San Francisco Bay Region
1515 Clay Street, Suite 1400, Oakland, CA 94612
(510) 622-2300

**NOTICE OF APPLICATION AND PUBLIC HEARING
FOR
WASTE DISCHARGE REQUIREMENTS**

**STATE OF CALIFORNIA DEPARTMENT OF PARKS AND RECREATION
ANGEL ISLAND STATE PARK, TIBURON, MARIN COUNTY**

The above discharger has filed an application for issuance of Waste Discharge Requirements. The Water Board's staff has prepared a tentative order for this discharger, containing effluent limitations and special provisions, in accordance with the Federal Clean Water Act and the California Water Quality Control Act.

The discharger owns and operates a wastewater treatment plant (WWTP) located in Angel Island State Park. The WWTP currently discharges treated wastewater into Raccoon Strait in Central San Francisco Bay. The Discharger proposes to discharge the treated wastewater from the WWTP into a leach field constructed for that purpose on Angel Island, and to cease discharging to Central San Francisco Bay.

The Board intends to consider adopting the tentative permit during a meeting to commence at the time and location as follows:

Time and Date:	9:00 A.M., June 16 2004
Location:	Auditorium, Elihu Harris State Building 1515 Clay Street, Oakland, California

Persons wishing to file written comments on or objections to the limitations or provisions of the tentative order or other aspects of this matter are requested to do so no later than 5:00 p.m. on June 5, 2004, so that such comments may be considered in preparing this matter for presentation to the Board. No written comments will be accepted or responded to in writing after that date.

Interested persons are invited to attend and express their views at the public hearing on this matter. The Board will hear oral testimony, but will not accept written comments after the deadline noted above, except for written transcripts of oral testimony, if desired to assure accuracy of the record.

Pursuant to section 2050(c) of Title 23 of the California Code of Regulations, any party that challenges this Board's action on this matter through a petition to the State Water Resources Control Board under Water Code section 13320 will be limited to raising only those substantive issues or objections that were raised before this Board at the public hearing or in timely submitted written correspondence delivered to the Regional Board.

The application for the WDRs, the tentative order, and related documents may be inspected and copied at the Regional Board office. On and after May 6, 2004, the tentative order will also be available on the Board's website at www.swrcb.ca.gov/rwqcb2. Contact Ken Katen at (510) 622-2485, or by e-mail at kk@rb2.swrcb.ca.gov, if you have any questions on this matter. Please bring this matter to the attention of anyone whom you know to be interested in this matter.

DATED

Lila Tang, NPDES Division Chief
