**NOTICE OF OPPORTUNITY TO COMMENT AND PUBLIC HEARING  
FOR  
RESCISSION OF GENERAL DISCHARGE PERMIT**

**Discharge or Reuse of Extracted and Treated Groundwater resulting from the Cleanup of  
Groundwater Polluted by Volatile Organic Compounds**

The Board's staff has prepared a tentative order that would rescind a 2009 general permit under the National Pollutant Discharge Elimination System. The general permit is no longer necessary because the discharges it would cover can be covered under another general permit issued in 2012 for discharges of treated groundwater from cleanup of both volatile organic compounds and fuel leaks.

**The deadline for receipt of comment on the tentative order is 5:00 p.m. on August 11, 2014.**

Comments must be sent to the **attention of Lou Gonzales**. Persons wishing to file written comments on or objections to the tentative permit or other aspects of this matter must do so no later than this deadline so that such comments may be considered.

The Board will consider adopting the tentative order during a meeting to commence at 9:00 a.m. on **September 10, 2014**, in the Auditorium of the Elihu Harris Building at 1515 Clay Street in Oakland. Interested persons are invited to attend and express their views at the public hearing.

Pursuant to California Code of Regulations Title 23 section 2050(c), any party that challenges the Board's action on this matter through a petition to the State Water Resources Control Board under Water Code section 13320 will be limited to raising only those substantive issues or objections that were raised before the Board at the public hearing or in timely submitted written correspondence.

All documents related to the tentative order may be inspected and copied at the Board office. The tentative order and any developments on this matter are also available at [www.waterboards.ca.gov/sanfranciscobay](http://www.waterboards.ca.gov/sanfranciscobay). Board staff's responses to comments will be posted on that website one week prior to the hearing.
